

TRIPLE SEPARATION

Clean 100

A cleaner and safer working environment

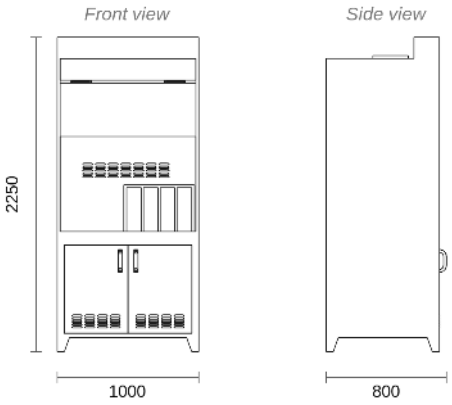

The CLEAN cabinet is the result of 30 years of experience – a complete solution for every task involving solvents or water-based materials.

A built-in supply-air box and the unique Spray Stop cassette provide triple separation of paint particles and a constant supply of fresh air.

KEY FEATURES

1. **Built-in supply-air box**
   Standard in every CLEAN cabinet; provides a constant supply of fresh air.
2. **Triple separation**
   The Spray Stop cassette and the existing filters capture paint particles in three stages.
3. **Easy cleaning**
   Spray paint samples or clean guns directly against the easily accessible paint trap.
4. **Safe paint handling**
   Store washing liquid and paint residue ventilated under the bench until cured.
5. **Prepared for supply air & luminaire**
   Option to connect supply air and built-in lighting for precision work (the luminaire is an accessory).
6. **Water-based or solvent**
   Takes one or the other. The solvent gun is driven by compressed air – no pump.

DIMENSIONS

TECHNICAL SPECIFICATION

Article number	**2-1100R**
Designation	**Clean 100**
Type	**Paint handling cabinet**
Material	**Galvanised steel**
Size (W×D×H)	**1000 × 800 × 2250 mm**
Exhaust air requirement	**1900 m^3/h**
Exhaust air, dimension	**1 × Ø250 mm**
Supply air requirement	**350 m^3/h**
Supply air, dimension	**1 × Ø160 mm**
Accessories	**EX LED light fitting**
