

COMPACT PAINT MIXING

Midimix 195

Mixing cabinet in a lower design

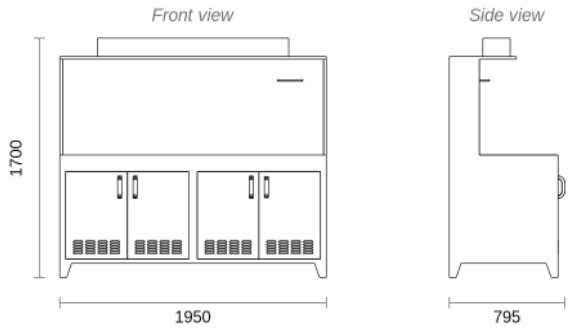

Midimix 195 is a mixing cabinet in a lower design for professional paint handling – a compact version with full working width but only 1700 mm in height, for workshops where ceiling height or placement is limited.

Powerful exhaust air and ventilated lower cabinets keep the working environment clean. Note that Midimix has no supply air, which gives a larger electrical classification zone (zone 2 approx. 1.5 m) compared with Mix cabinets with supply air.

KEY FEATURES

1. **Lower design**
   Only 1700 mm high – fits where ceiling height or placement is limited.
2. **Full working width**
   1950 mm wide working surface for mixing and storage.
3. **Ventilated storage**
   Ventilated lower cabinets for safe handling of paint and solvents.
4. **Powerful exhaust air**
   3600 m^3/h (2 × Ø200 mm) for effective extraction.
5. **Without supply air**
   Simpler installation; note the larger classification zone (zone 2 approx. 1.5 m).
6. **Swedish-made quality**
   Robust materials for long-term use.

DIMENSIONS

TECHNICAL SPECIFICATION

Article number	**2-4195**
Designation	**Midimix 195**
Material	**Galvanised steel**
Size (W×D×H)	**1950 × 795 × 1700 mm**
Exhaust air requirement	**3600 m^3/h**
Exhaust air, dimension	**2 × Ø200 mm**
Supply air	**None**
Classification, zone 2	**1.5 m (no supply air)**
Recommended luminaire	**2 × 36 W**
Weight approx.	**200 kg**
Accessories	**LED light fitting**
