MOBILE FOLDING ACCESS PLATFORM

MOBILE · FOLDING MAST

LIFTMAN™ Fold

Mobile platform that folds down to pass low doors

LIFTMAN™ Fold has the same mobile, pneumatic concept as LIFTMAN™ – but with a folding mast. Folded down, the platform is only 2,050 mm high and passes through doors and passages with low ceiling height.

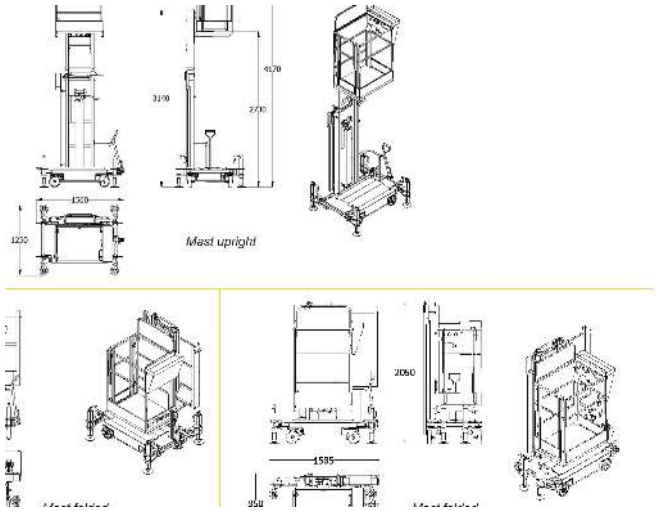

Manual steering and movement with a pneumatic up/down function. Support legs are standard and it can be used both indoors and outdoors.

Developed & manufactured by Reglo AS, Norway · ATEX · CE

KEY FEATURES

1. **Folding mast**
   Folds down to 2,050 mm and passes low doors and passages.
2. **Fully mobile**
   Moved freely between objects and workplaces.
3. **Pneumatic lifting**
   Manual hand valve in the basket controls up/down – no electricity.
4. **Support legs standard**
   Stable and safe set-up when working at height.
5. **Indoors & outdoors**
   Works just as well outdoors as in the spray booth.
6. **ATEX category 2**
   Safe in flammable environments, minimal maintenance.

DIMENSIONS (mm)

Dimensioned drawing – extended 3,140 mm / folded 2,050 mm

TECHNICAL SPECIFICATION

Design	**Fully mobile with folding function**
Construction	**Welded steel**
Finish	**RAL 1023 (yellow)**
Net weight	**470 kg**
Power	**Fully pneumatic operation**
Payload	**140 kg (1 person + equipment)**
Lift height extended	**3,140 mm (floor height)**
Height folded	**2,050 mm**
Controls	**Hand valve in basket · manual operation**
Air supply	**6–8 bar, min. 350 l/min**
Marking	**ATEX · CE**

PRODUCT SHEET

MOBILE FOLDING ACCESS PLATFORM

APPLICATION

Access even where the ceiling is low

The folding function makes LIFTMAN™ Fold ideal for premises with limited ceiling height, gates and narrow passages. Fold down the mast, roll the platform to the next workplace and fold it up again – easy and fast without tools.

Just like LIFTMAN™, it provides an ergonomic working position for sanding, masking, repair and decals, with lower strain and better results than ladders and scaffolding.

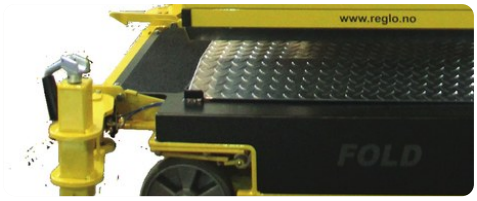

DETAILS

Folding joint for the mast – quick folding down/up

Spirit level for safe set-up

Support legs & wheels

BENEFITS

- Better end result and finish
- Safer and better working environment
- Lower production and running costs
- Quality and long service life
- Low lifetime investment – high ROI
- Increased productivity – more done in less time
- Easy to use, short training
- CE marked, ATEX category 2

SAFETY

RAISING / LOWERING

- Protection against sudden pressure loss
- Protection against chain slack

OTHER FUNCTIONS

- Non-slip floor in the basket
- Signal horn · chain guard panels
- Self-closing hinges & door catches
- Emergency lowering of the basket

Subject to printing and translation errors and technical changes. Stated values are for guidance only.
