MOBILE PNEUMATIC ACCESS PLATFORM

FULLY MOBILE · PNEUMATIC

LIFTMAN™

Mobile lift platform for prep, sanding and paint

LIFTMAN™ is a fully mobile, pneumatically powered access platform. The operator drives and controls it from the basket and easily reaches the entire object – perfect in the prep area for sanding, masking, minor repairs and decals.

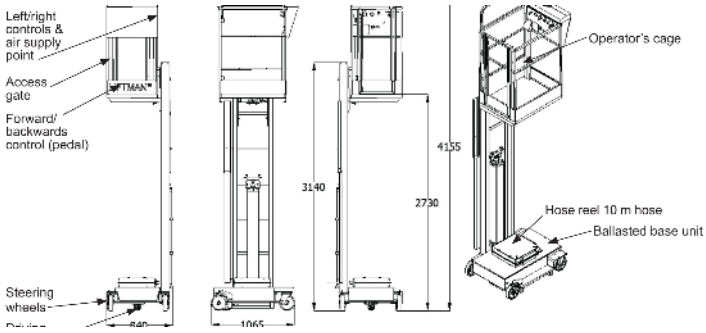

With no electric motors, LIFTMAN™ is safe even in flammable environments and requires minimal maintenance. It takes little floor space, has a small turning radius and is delivered ready to use.

Developed & manufactured by Reglo AS, Norway · ATEX · CE

KEY FEATURES

1. **Fully mobile**
   Rolls to where the job is – working area up to 10 m radius from the air connection.
2. **Ergonomic access**
   Joystick and compressed-air outlet in the basket give an optimal working position.
3. **Foot pedal for driving**
   Drive the platform with your foot – hands free for the work.
4. **Fully pneumatic operation**
   No electric motors; safe in ATEX-classified areas, minimal maintenance.
5. **Small footprint & turning radius**
   Compact base that manoeuvres in tight spray booths.
6. **Ready to use**
   Delivered complete, ATEX category 2 – up and running immediately.

DIMENSIONS (mm)

Dimensioned drawing – lift height, base and reach

TECHNICAL SPECIFICATION

Design	**Fully mobile**
Construction	**Welded steel**
Finish	**RAL 3002 (red)**
Net weight	**400 kg**
Power	**Fully pneumatic operation**
Payload	**140 kg (1 person + equipment)**
Lift height	**2,730 mm (floor height)**
Working area	**Up to 10 m radius**
Controls	**Joystick in basket · foot pedal**
Air supply	**6–8 bar, min. 350 l/min**
Marking	**ATEX · CE**

PRODUCT SHEET

MOBILE PNEUMATIC ACCESS PLATFORM

APPLICATION

The perfect tool in the prep area

LIFTMAN™ provides fast, flexible access for sanding, masking, minor repairs and sign/decal application. With an optimal working position throughout the job, the result is better while strain on the back and body is reduced compared with ladders and scaffolding.

Users report lower absence, improved productivity and shorter lead times after LIFTMAN™ was put into use.

DETAILS

Control panel – joystick, compressed air & ATEX marking

Basket with non-slip floor

Compact mobile base

BENEFITS

- Better end result and finish
- Safer and better working environment
- Lower production and running costs
- Quality and long service life
- Low lifetime investment – high ROI
- Increased productivity – more done in less time
- Easy to use, short training
- CE marked, ATEX category 2

SAFETY

RAISING / LOWERING

- Protection against sudden pressure loss
- Safety chain on the compressed air
- Protection against chain slack

OTHER FUNCTIONS

- Non-slip floor in the basket
- Signal horn
- Self-closing hinges & door catches
- Emergency lowering of the basket
