FLOOR-RUNNING PNEUMATIC ACCESS PLATFORM

FLOOR-RUNNING · 2 PEOPLE · 6 M

WALL-MAN® XL

Large format for tall objects and heavy vehicles

WALL-MAN® XL runs on rails on the floor and takes the same three-dimensional movement to a larger scale: a 2-metre-wide basket with room for two people and a lift height of up to 6 metres.

Built for the largest objects – trains, larger vehicles and tall industrial parts – with the same pneumatic operation, safety and low maintenance as WALL-MAN®.

Developed & manufactured by Reglo AS, Norway · ATEX · CE

KEY FEATURES

1 Two people
2 m wide basket and 250 kg payload – two painters at once.

2 Lift height up to 6 m
Reaches tall objects such as trains and large industrial parts.

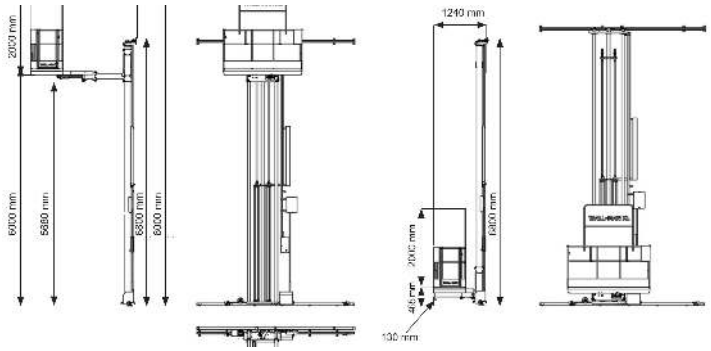

3 Floor-running on rails
Stable operation with braked support wheels along the booth floor.

4 Three-dimensional movement
Up/down, in/out and left/right – full control.

5 Fully pneumatic · ATEX
Safe in flammable environments, minimal maintenance.

6 Robust construction
Welded steel, RAL 5015 – long service life and high ROI.

DIMENSIONS (mm)

Dimensioned drawing – front, side and iso view

TECHNICAL SPECIFICATION

Design	**Floor-running on rails**
Construction	**Welded steel**
Finish	**RAL 5015 (blue)**
Net weight	**790 kg**
Power	**Fully pneumatic operation**
Movement	**3D – up/down, in/out, left/right**
Payload	**250 kg (2 people + equipment)**
Basket width	**2,000 mm**
Telescope	**1000–1300 mm out/in**
Lift height	**Up to 6 m**
Marking	**ATEX · CE**

PRODUCT SHEET

FLOOR-RUNNING PNEUMATIC ACCESS PLATFORM

MODELS & REACH

Model	Distance from wall[1]		Basket size[2]		Lift height[3]
	Min (A)	Max (F)	Width	Depth	Std
WALL-MAN XL 1000 3D	1240	2240	2005	820	6000
WALL-MAN XL 1300 3D	1390	2690	2005	820	6000

All measurements in mm. 1) Offset possible up to 250 mm – additional distance with special brackets. 2) Other sizes can be ordered. 3) Distance between booth floor and basket bottom. Splitting doors cannot be used with WALL-MAN® XL.

REACH & DESIGN

WALL-MAN® XL is made for the largest objects and the tallest booths – e.g. railway and heavy vehicle industry – where reach, lift height up to 6 m and room for two operators make the difference. The basket reaches all the way from floor level to full height.

Basket at floor level

Intermediate position

Fully extended – 6 m

BENEFITS

- Better end result and finish
- Safer and better working environment
- Lower production and running costs
- Quality and long service life
- Low lifetime investment – high ROI
- Increased productivity – more done in less time
- Easy to use, short training
- CE marked, ATEX category 2
